

Create a Domain | Register in Azure Entra ID

01 Create a Domain - Two ways

1. Azure Service Domain
2. Buy Third party Domain (Godaddy)

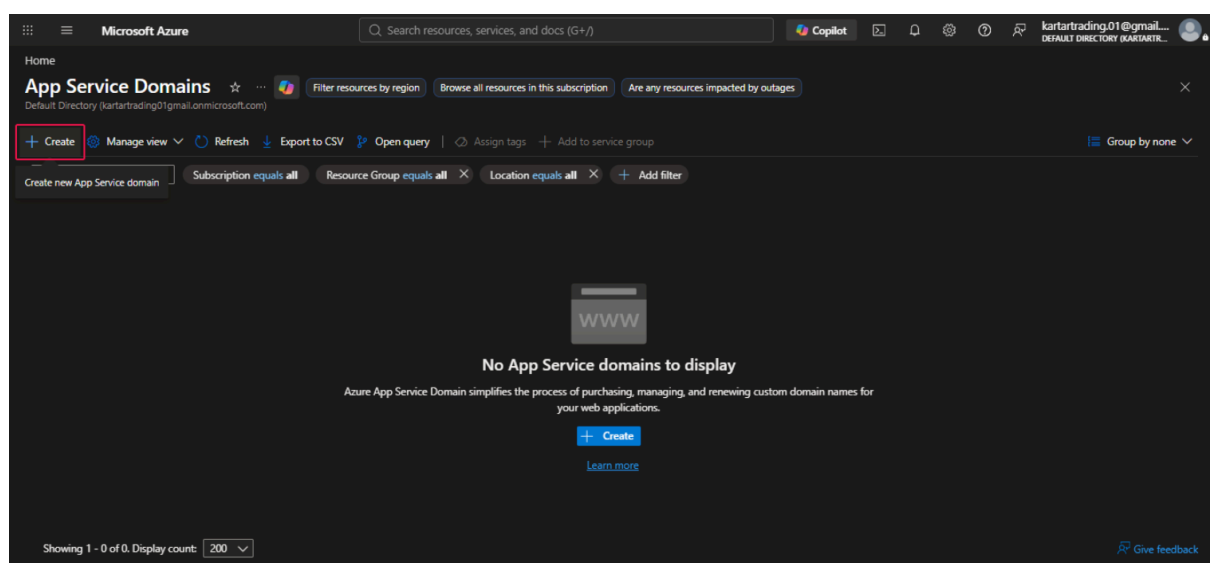

1. Azure Service Domain

Click on the link "App Service Domains"

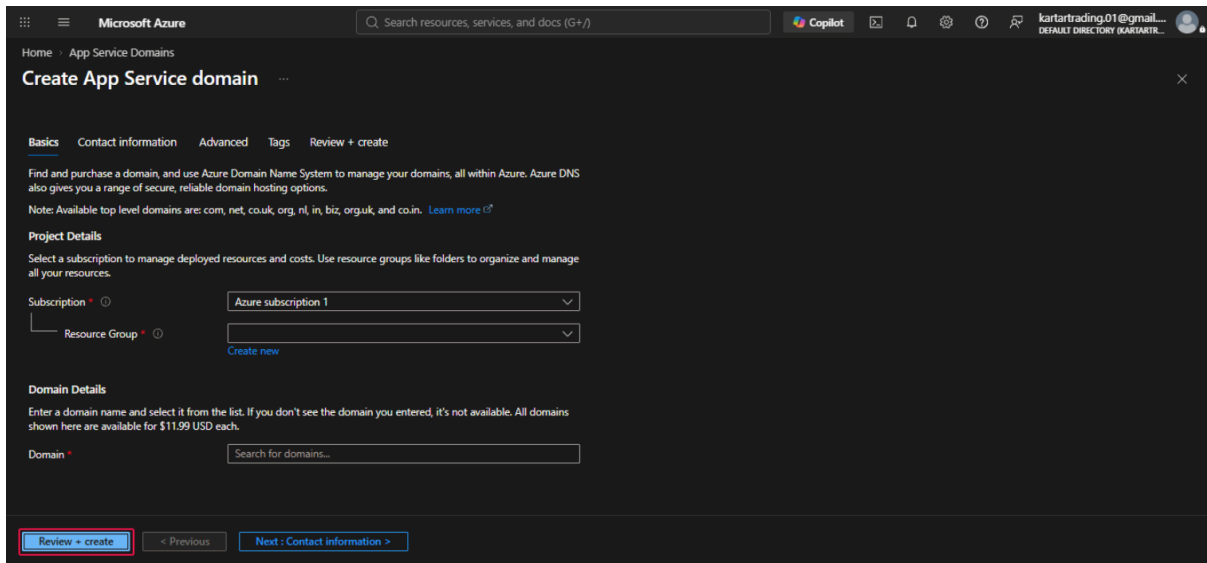

Tab Name:

Click on the link " Create"

Tab Name: Create App Service domain - Microsoft Azure

Click on the button "Review + create"

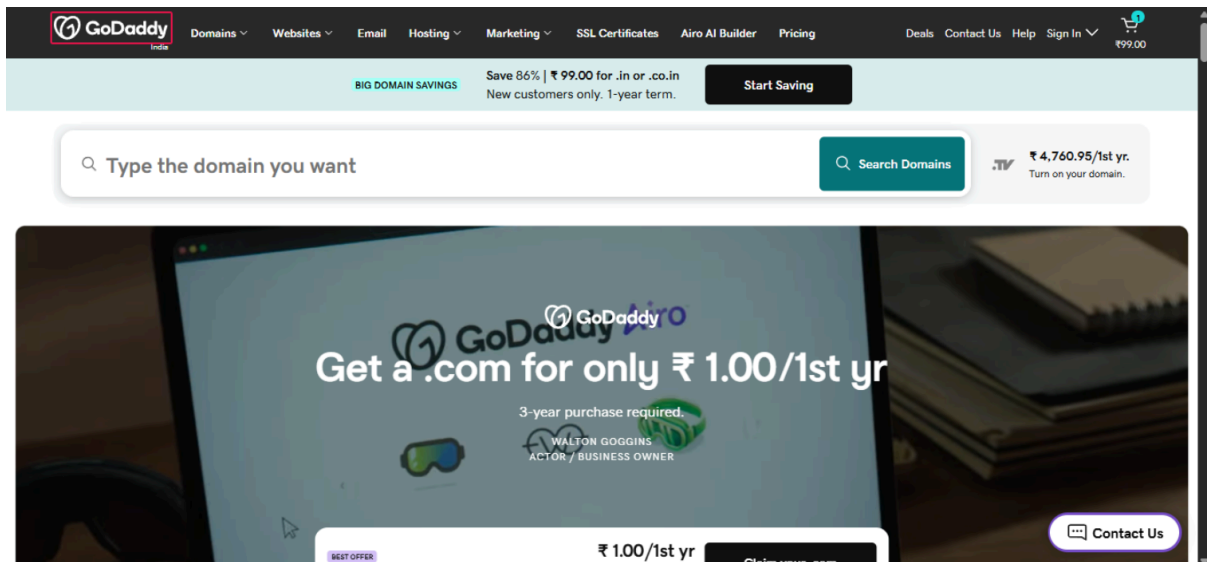

The screenshot shows the 'Create App Service domain' wizard in the Microsoft Azure portal. The 'Review + create' button is highlighted with a red box. The wizard includes sections for Project Details (Subscription, Resource Group), Domain Details (Domain name), and navigation buttons (Review + create, Previous, Next: Contact information).

Tab Name: Domain Names, Websites, Hosting & Online Marketing Tools - GoDaddy

2. Buy Third party Domain (Godaddy)

Go to [Godaddy.com](https://www.godaddy.com) and buy a domain

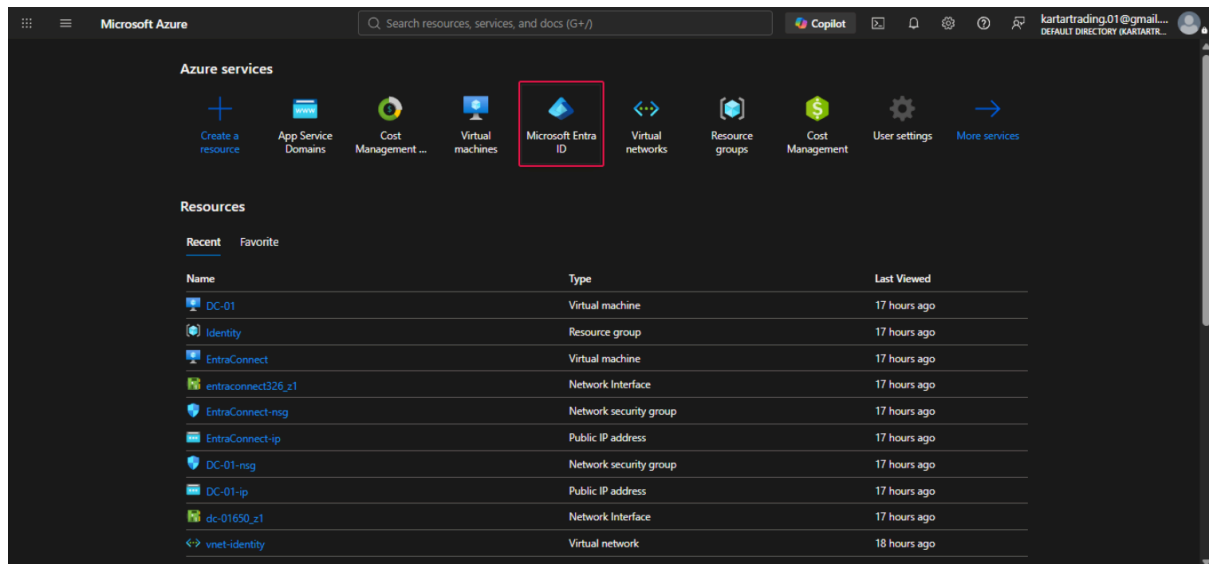

The screenshot shows the GoDaddy homepage. The GoDaddy logo is highlighted with a red box. A promotional banner for .com domains is visible, offering a .com domain for ₹ 1.00/1st yr. The banner also mentions a 3-year purchase requirement and a 'BEST OFFER' tag.

02 Register in Azure Entra ID

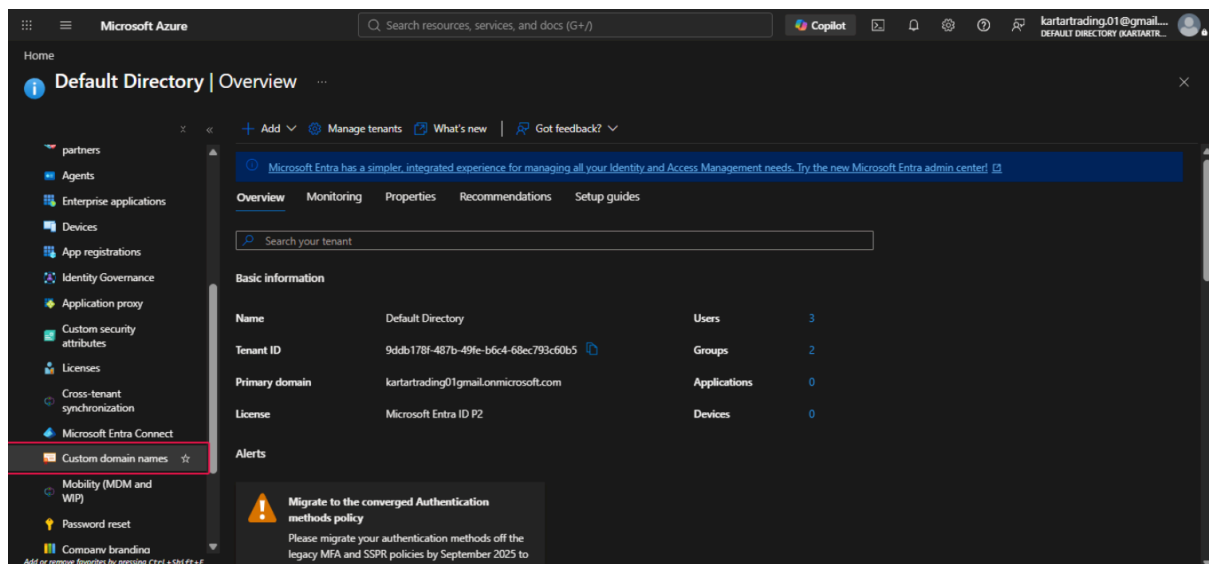

Tab Name: Home - Microsoft Azure

Click on the link "Microsoft Entra ID"

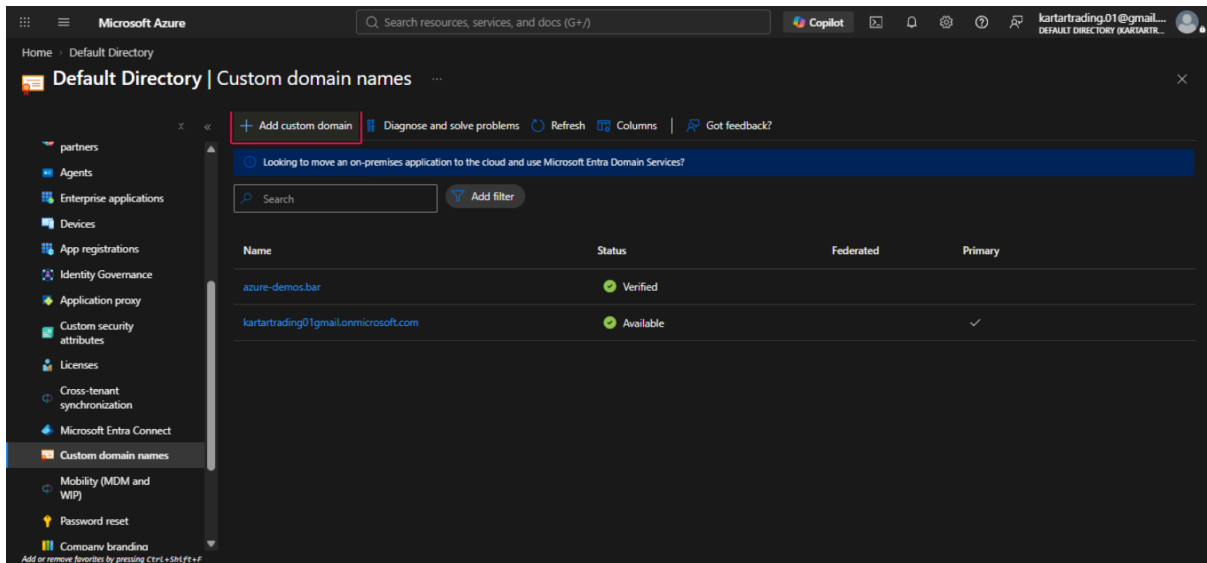

Tab Name: Default Directory - Microsoft Azure

Click on the link "Custom domain names"

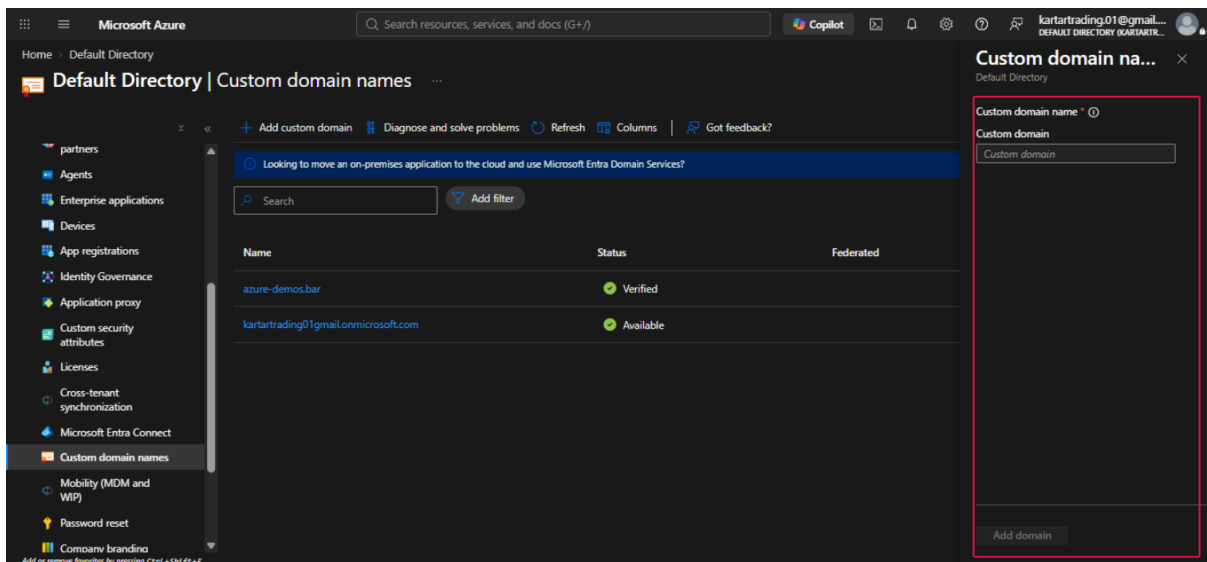

Tab Name:

Click on the button " Add custom domain"

Click on "Custom domain name Custom domain Add domain"

Last Important Step :

Copy the text record and register it on Godaddy domain register page
